Message from the Chairman of the Board Sustainability Committee

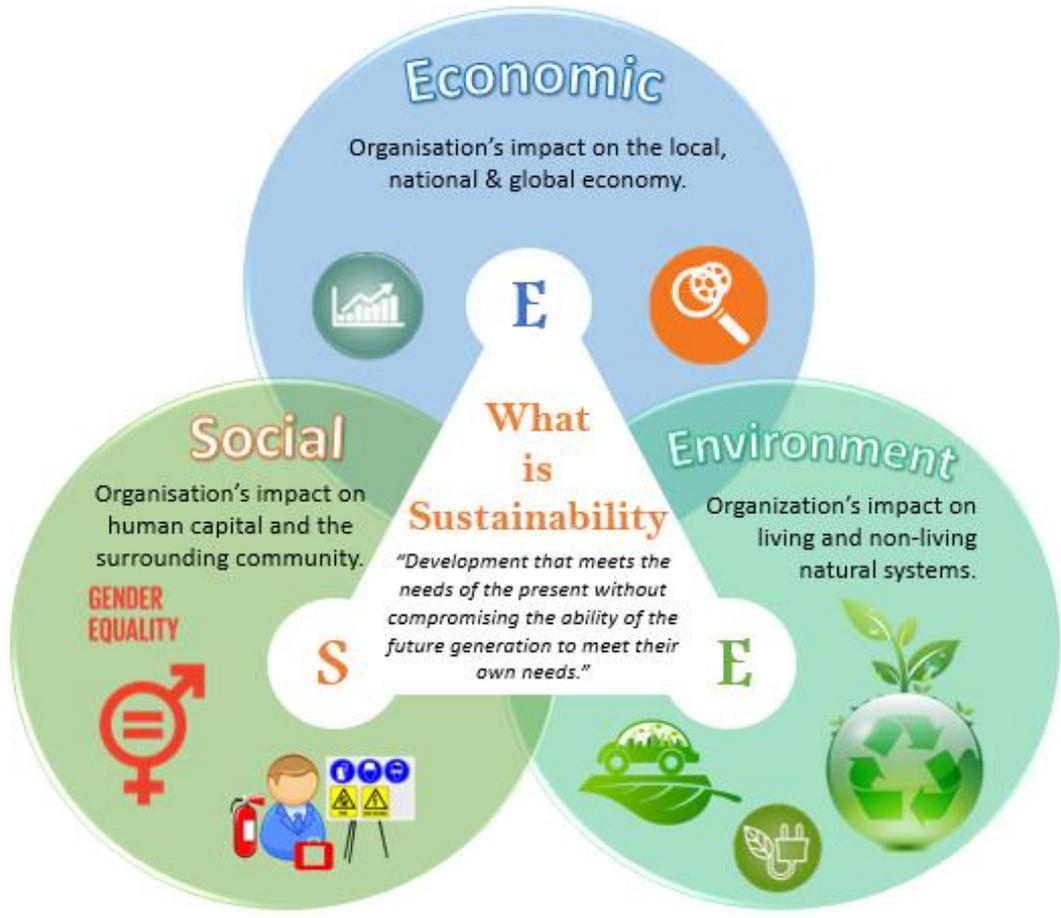

Greetings Bousteadians,

Lestari Boustead is Boustead Sustainability's initiative towards developing a sustainable culture across the Group. Although sustainability is a fast-growing topic and covers many areas, we are focused on three key areas which are Economic, Environmental and Social. Lestari Boustead encourages all Bousteadians to be fully aware and committed to making this world a better place for the future generations to come.

Therefore, I strongly urge all Bousteadians to keep in mind all the sustainability practices to ensure that we are a sustainable Group of Companies.

What is Sustainability?

Our Key Material Issues

Through our stakeholder engagement initiatives, we have identified more than 20 issues in relation to our Group’s business operations. However, we have assessed the issues and identified that only 8 issues below are deemed to be most significant to the Group and stakeholders.

Key material issues are defined as issues that are

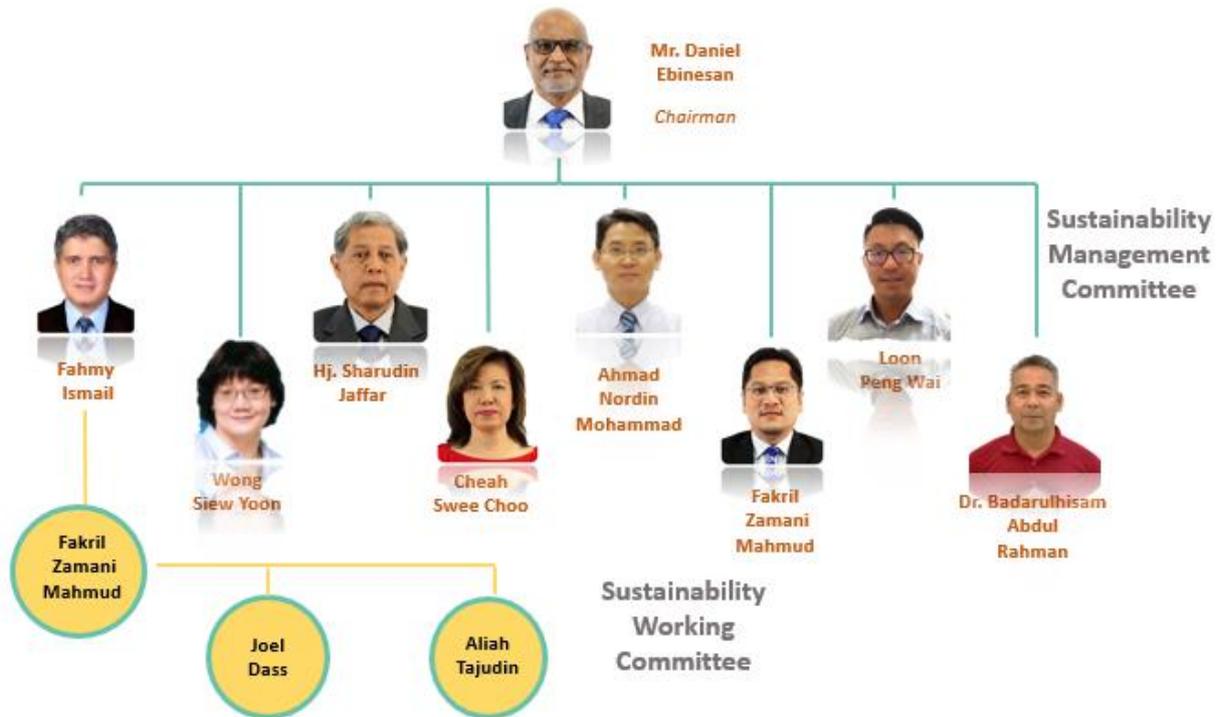

most relevant and have the **greatest impact** to

Our Business & Stakeholders

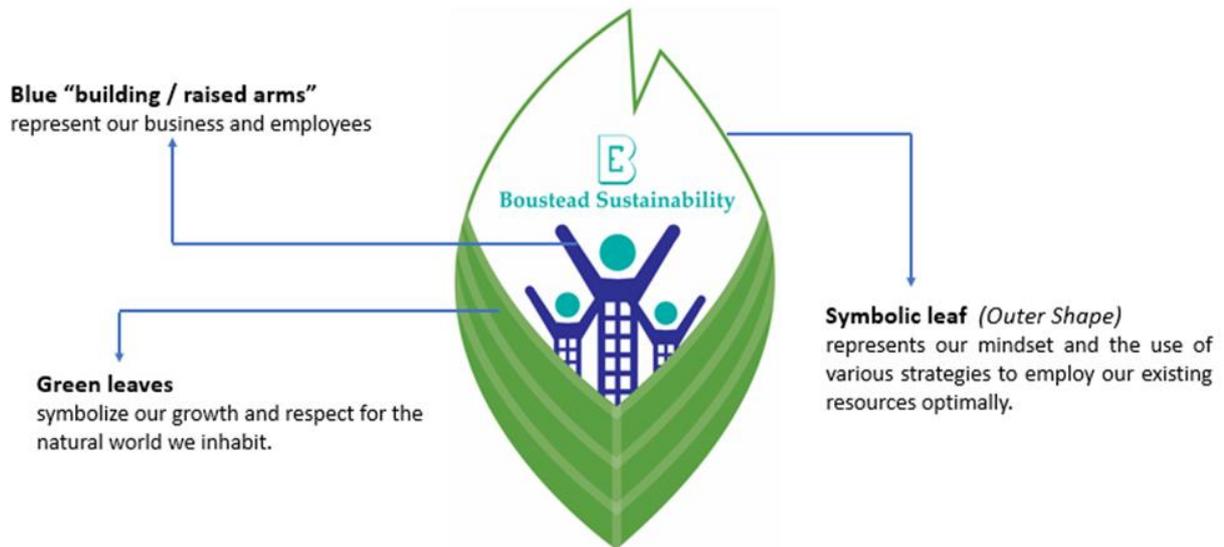

Meet the Sustainability Team

About the Sustainability Logo

During Boustead Sustainability Day in November 2017, among the activities conducted were the Logo Design Competition. Out of 18 logos submitted, three (3) were shortlisted and the winner was Puan Nurrita Ainni Abu from Group Corporate Communication & Administration Department. The second and third runners-up were Encik Muhammad Syahmie Abdul Halim and Puan Farin Abdul Razak from Group Internal Audit and Group Human Capital Management, respectively.

Highlights from 2017

Boustead Sustainability Day 2017

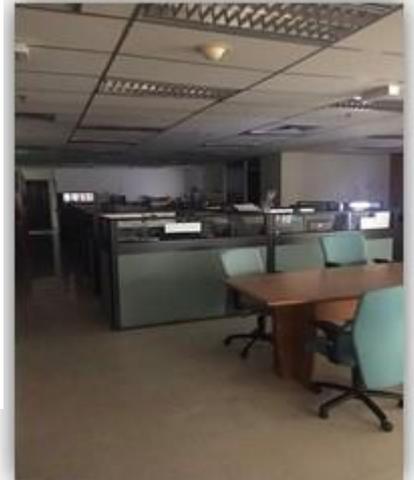

Boustead Sustainability Day 2017 (BSD) was held in conjunction with the World Sustainability Day, which is held annually every fourth Wednesday in October. Our BSD commenced with the Sustainability Logo Competition a month before the recycling and 'Lights off' activity was held on the 1st November 2017.

The objective of this programme was to create awareness and encourage involvement amongst Bousteadians in sustainable activities.

Lights off was held at Menara Boustead and Wisma Boustead during lunch hour

Rumah Amal Asnaf Al-Barakh

The recycled items collected during the BSD were sold to the Pusat Kitar Semula Komuniti, Presint 9, Putrajaya. With the sum of money received from the sale of recycled items, the Sustainability Working Committee with the help of Dr. Raja Farhana Raja Khairuddin from the CEO @ Faculty Programme purchased some staple food and hampers to be donated to Rumah Amal Asnaf Al-Barakh in Keramat.
